EDUCATION

Poornima University

Bachelor of Technology in Computer Science (**CGPA: 9.04/10**)

Jaipur, Rajasthan

Aug 2023 – May 2027

TECHNICAL SKILLS

Languages: C++, Java, SQL, Python

Backend: Spring Boot, Spring Security, JWT, REST APIs, GraphQL, Hibernate

Core CS: Data Structures & Algorithms, OS, CN, DBMS

Tools & DevOps: Git, Docker, AWS EC2, Linux, Postman, Vim, VS Code

Databases: MySQL, MongoDB, Redis

ACHIEVEMENTS

Competitive Programming & Problem Solving

- Ranked in the **Top 1.33% globally** on LeetCode with a rating of **2100+ (Guardian)**.
- Specialist (1490+)** on Codeforces; **AIR 84** in Codeforces Round 1096.
- Solved **2000+ algorithmic problems** across LeetCode, Codeforces, and CSES.
- Placed in the **top 3.2%** of active users on CodeChef with a **3-star (1650+)** rating.
- Secured **1st place** among 200+ participants in Entrevista 4.0 by GLA university.

PROJECTS

Nearby | Java, Spring Boot, WebSockets, Redis, JWT, MongoDB/MySQL | [GitHub](#)

Mar 2026 – Present

- Built a **location-aware social platform** supporting **event, discussion, and request rooms** with realtime communication.
- Integrated **Redis GEO queries** for radius-based room discovery and nearby user recommendations.
- Designed a **WebSocket-based messaging architecture** for persistent bidirectional room communication.
- Implemented **JWT-based authentication** and request filtering using **Spring Security**.

LeetHost | Java, Spring Boot, MySQL, Docker, AWS EC2, GraphQL | [GitHub](#)

Aug 2025 – Oct 2025

- Built a **Spring Boot** backend using **GraphQL** to track LeetCode users, contests, and **3000+ problems**.
- Developed an **ID verification system** linking Discord accounts with authenticated LeetCode profiles.
- Designed a **multithreaded duel engine** with **ELO ranking**, supporting competitive sessions used by **50+ users**.
- Containerized with **Docker** and deployed on **AWS EC2** for reliable 24/7 availability.

Flow State Zone (CLI Workbench) | C++, SQLite, REST APIs | [GitHub](#)

Jan 2026 – Feb 2026

- Built a **CLI workbench in C++** for managing tasks and CP problems with structured storage and indexing.
- Integrated **Codeforces API** to auto-fetch problem metadata (rating, tags, name).
- Developed a **progressive AI hint system** (perception → approach → insight) using Gemini API.
- Implemented **SQLite-based persistence** for tracking state, hints, and user reflections.

POSITIONS OF RESPONSIBILITY

Team Lead / Contributor

Hackathons and Open Source

Remote / On-site

2024 – Present

- Led development-focused teams** in multiple university and online hackathons, managing project MVPs.
- Contributed to open-source projects during **GSSOC 2024–25** with a focus on Java backend modules.
- Contributed feature improvements to the **Sofi Discord bot** ecosystem (500+ members).
- Mentored 100+ students during GFG PCD sessions and ACD community.
